who **we** are?

VJ Entertainments is an enterprising and dynamic new arrival to the world of entertainment. We are proud to present to you, a galaxy of gifted, versatile, and talented artistes in the fields of music, mimicry, and dance. Our endeavor is to delight our audience with our original and imaginatively curated shows. VJ has a team of discerning talent scouts who have the ability to put together unique and imaginative shows that will dazzle and delight audiences with their innovative content. Thus, our esteemed clients have a wide variety of creative stage shows to choose from, to entertain their audience, and enrich their viewing pleasure.

At VJ, we value commitment and dedication, and look to achieve excellence in every area of our work. We pride ourselves on nurturing exceptional talent and creativity. We have built up expertise in every facet of stage shows. Every show that we present is meticulously and professionally managed, with a strong emphasis on creative excellence. We are not just a music band, group of mimics, or a dance troupe – although we offer all these shows, and more. We look at every stage show holistically, so our shows are efficiently and courteously managed, even as they captivate audiences with their skilful artistes. The art of connecting artistes, both budding and experienced ones, with right audience is what we dream of doing here. Be it music, dance, or mimicry, we have mastered the art of curating and presenting the best talent in such a way that we are able to deliver a cloud nine experience to our audience every time! We are empowered by talent, and for us, “The show must go on...”

At VJ, talents don't work for us. We work for them, to entertain you!
